

FR.TK.REFLECTIONS 19th SUNDAY YEAR -C-2025:

VIGILAND AND ON LOOK OUT:

Jesus is calling on us to be on the **look out,alert,prepared and ready** for any **hour,day and time he will come(Lk.12:40)**.Does he mean the second coming and the end of the world or does he mean coming for us individually at the time of our death.In either case the bottom line is to be prepared for his coming.

Many people are spending so much time absorbed by **signs of the end** days like **darkness,earthquakes,wars,flood,tornados,fires celestial disruptions** and **hurricanes** all talking of end times that they overlook and forgot the basics that,that day catches them unaware .**The Lord is telling us he will come when we least expect of him hence the call is be prepared.**it will come suddenly and unexpectedly like a **night thief or terrorist they never warn when to strike**.The lord command to his apostles and to us as his followers and his church is that when he comes in his glory he should find us **busy working at the mission of evangelization for the kingdom of God**.we should rather going to the whole world and **spreading the good news** and **preparing others** according to the **talents and gifts given him**.

The question of happening and the signs of the end shouldn't occupy our time always rather it should be an opportunity of **revival and renewal** which will bring change of heart.The truth is that non of us knows the time he will come for us neither the time of our death but must stay on look out and be prepared.He should find us working as faithful servants.In whatever time,place we die it doesn't matter,the judgement seat will be erected there.All will face

individually not collectively each accompanied by **our deeds, action whether they were good or bad that will be the measuring rod.**our deeds will be our witness.God knows each and everything about us.The call is to be authentic,sincere and truthful and live a responsible caring life of yourself and others.

There is an **eye that sees everything, everywhere and any moment, there is ear which listens to everything, anything anyplace and any time that belong to God the creator.**If the judgement has to take place this moment, can we say that we have been faithful servants? is there anything we need to improve, to get rid off that we are ready for the encounter with the creator!

Christ is calling us to be **on alert, to fasten our seat belts, he is showing us emergence exits, oxygen mask, life jackets in case of emergence** which we normally face on our journey here on earth.The coming of our Saviour must not catch us unaware.We must not endanger valuable life by unhealthy living, drugs, substance alcoholism immorality.we have all the opportunities let us not misuse them.**THE GRACE OF JESUS IS ENOUGH:**
